### Background & Experience

Lisa Mercer brings 20 years of experience in the medical/dental field as a Human Resource Manager and Dental Hygiene Clinical Instructor where she addressed the needs of both patients and business owners. Moving into commercial real estate from the medical/dental field was a natural transition for Lisa, with a family history of commercial real estate, construction/contractors and mortgage and financing leaders. Lisa has partnered with a Director at NAI SunVista Commercial Real Estate with over 20 years' experience in the commercial real estate field. This partnership allows Lisa to sharpen her customer service skills, increase her existing knowledge of commercial real estate, and it holds her accountable to her professional and personal development goals.

Lisa is a true native of New Mexico, attending Eldorado High School before attending the University of New Mexico where she received her Bachelor of Science in Dental Hygiene. In addition to serving on medical mission trips to Haiti and Guatemala, Lisa has a strong passion and dedication for Special Olympics and currently holds the New Mexico Special Smiles State Clinical Director position.

In her spare time, she enjoys hiking, kayaking, reading, watching football, working on DIY projects and working in her family's winery.
